

# RISAA Members In The Military

Many of our members are serving in the military. This column will be a way to keep in touch with friends back home.

From: PFC Kevin Robishaw  
U.S. Army - Iraq  
To: Fellow RISAA Members

It is the beautiful, warm (111 degrees) month of May here in south Balad Ruz, Diyala Province, Iraq. I am doing just fine despite the temperature and the air conditioner in my truck which is built by the lowest bidder that blows out a fresh hot breeze!

We are all OK, for the most part, and we are getting ready to move to another FOB (Forward Operating Base) located across our area of operations to join the rest of the battalion which has been there since we deployed. So, the next letter I write will be from another post!

There's not much to report on from our situation that is new. We are still running operations daily in coordination with Iraqi forces to help achieve security and peace among our AO (Area of Operations). There has been a little spike in violence around Iraq, as I see it a futile attempt to disrupt all that has been achieved in the last 6 years or so.

This is an Iraqi checkpoint at about 8:30 pm - temperature 106 degrees!

Every day I am excited to check my e-mails about what is going on back in Rhody. I may be a little jealous because I'm not on the water right now for the spring migration of stripers, but it is good knowing that RISAA members are out there doing plenty of fishing.

It's also good to see how you are introducing new people and less-fortunate children (Take A Kid Fishing) who may never had the opportunity to go fishing by an all volunteer organization comprised of some of society's best citizens! That is why I'm proud to be an American and proud to say I am from Rhode Island! (to page 39)
