Committee Report . . .

The Striper Cup Committee

Bill "Eelman" Nolan, Chairman

As of this writing the RISAA Team has slipped to second place, but not by much! Hopefully, by the time you all read this, we will have ourselves back in front.

Some of our notable catches to mention:

Steve McKenna with a 37pound shore caught fish,
Jim White with 31 pound boat fish

Jack Linton with a 41pound boat fish

Jack Sprengel with a 37 pound boat fish.

I have weighed in two fish at 31 pounds each in the last couple weeks. Hopefully, they post soon and help us out with points.

Everyone who has weighed in fish is to be congratulated! As of now, there is no point in weighing fish in unless they are larger than the last fish on the team. You can see this at www.onthewater.com. Just click on the striper cup link to see the leader board. Look at the smallest fish and then you will have an idea on what size to weigh in.

Jack Sprengel

Bill Nolan

lead!

For now Tight lines! and keep on plugging!

Fishing in June has been tough, especially for the shore anglers. Hang in there and keep putting in your time! The boat crew isn't finding it easy either. It's a lot of hunting to find pods of fish. Well, hopefully we have some more nice fish weighed in and regain the
