

# RISAA Member News

by Lynn Medeiros

The purpose of this column is to pass along information and milestones within the membership. Birthdays, anniversaries, events or get-well wishes are all in order. We also let members know of the passing of other members.

## GREAT RESULTS

Congratulations to **BOB MARCO** who had cataract surgery done on both eyes in January. Bob is pleased to report he now has 20/20 vision in both eyes!

## GET WELL

to **FRED RUHLEMANN** who apologized for not being able to help at the Boat Show. He had three surgical procedures on his left hand to correct "trigger fingers" and carpal tunnel. We hope all went well Fred!

**CONGRATULATIONS** to **DAWN AND TOM WOOD** who proudly hold their great nephew, **MAX MILLETTE** who was born on February 9.

Dawn's announcement went out as "RISAA's newest member!"

## GET WELL

to **DAVE MONTI** who underwent carpal tunnel surgery on his left hand. After 45 years of being an author and who spends so much time typing fishing articles and reports, it had to be painful to keep working. We wish you a speedy recovery Dave.
